Tank Load Limits are established for the safety and protection of your valuable koi. Find the type of koi and then put a "1" in the appropriate size range class. Add the numbers in each column and write the total in the "Total of Each Size" row. Multiply each "Total of Each Size" by the "Size Load Factor" and write the results in "Load by Size". Add each column in the "Load by Size" to get the "Total Load Points".

6' Tank limit: 80 points

Final adjustments to tank limit will be made by the Show Committee's designated Koi handlers
